CONSTRUCTION UPDATE

This E-blast is intended to keep stakeholders updated on construction work being undertaken on **N. Milwaukee Street** in conjunction with The Milwaukee Streetcar.

In our last construction update, we indicated that We Energies hoped to have their work on the new gas service in Milwaukee Street completed by Easter. However, they were unable to schedule the connection of the new gas services to one customer until this Monday. The connection is now complete, the old gas service has been abandoned and the new service is operating. Work on pavement restoration is underway and weather permitting, should be completed by the end of this week.

Thank you for your interest and your patience. If you have any questions or would like to be removed from the weekly E-blast list, please “respond” and let us know. The construction team meets most Friday mornings from 10 to 10:30 a.m. at the Hotel Metro in Pastiche and stakeholders are welcome to stop in if you have questions or concerns or if you just want an update on streetcar construction progress.
